

LOOK YOUNGER IN

60 MINUTES

BY KATHRYN BRUNO, LPE

AS A CLINICAL ESTHETICIAN, I AM FREQUENTLY ASKED BY WOMEN IF IT IS REALLY POSSIBLE TO REJUVENATE THEIR SKIN RESTORING A YOUTHFUL APPEARANCE.

The most common areas of concern are how to erase the effects of sun damage, environmental aging and a loss of skin elasticity.

Venturing out for a special event, work, family gatherings or summer vacation, every woman wants to look and feel her best.

But can you really restore your skin's youthful appearance in a short period of time without enduring the cost of invasive surgery and downtime?

The answer is a resounding *yes*. Advances in esthetics practice and clinical skin care have made achievable what only a few years ago many thought impossible.

Wrinkles and fine lines can be minimized in a variety of ways including in-office peels, micro and galvanic current, ultrasound and other custom modalities, taking years off your appearance

The very same protocols can produce firming and tightening, restoring elasticity to your skin.

You can even maintain your rejuvenated appearance at home utilizing a special home care system. New clients who take advantage of this super powerful system will receive a complimentary facial. Be sure to ask about it when you call.

These methodologies define what my practice is about at The Hidden Gem.

Every new client appointment begins with a consultation so that we can evaluate your skin condition, identify your goals and plan a custom treatment especially for you.

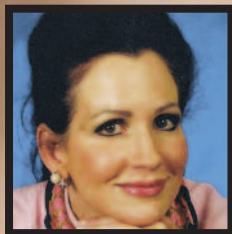

Then we'll move to the treatment room for an intense yet relaxing clinical skin care treatment like no other you have ever experienced.

By taking advantage of the world's most advanced skin care technologies and products, you'll see years of damage literally fade away, making you the envy of anyone you meet.

A treatment takes only 60 minutes. You'll love your new reflection in the mirror and be convinced that you can feel and look young again this summer and all year long.

For more than 30 years I have successfully worked with women worldwide helping them to achieve the youthful skin they always wanted, restoring their appearance and boosting their self-confidence.

Call me at The Hidden Gem today at **818.331.4035** and make an appointment. Prepare to dazzle friends and family when you reveal a younger looking, more confident you. **yhc**
